## Operetta—

The annual operetta, "Tulip Time," is to be held in Memorial Hall on May 6-7.

## Story

The village of Osendorf, enjoying a holiday, is startled by the arrival of a party of American tourists, college students under the leadership of Professor McSpindle, a tutor in botany, to study tulip culture. Two of the party, Ned and Dick, are much more interested in Christina and her friend, Katinka. News reaches the village that a thief has been stealing choice bulbs of prize tulips, and a handbill describes the thief and offers a reward for his capture. Ned and Dick induce McSpindle to wear certain clothing, answering the description of the tulip thief. When the Burgomaster beholds McSpindle so attired he causes his arrest. With McSpindle out of the way, Ned and Dick promote their friendship with the girls, and learn that Christina's stock is, unknown to her, of immense value. They reveal the truth to her and thwart the Burgomaster's attempt to grow rich at her expense. With the assistance of Christina's Aunt Anna, the innocence of McSpindle is established, and the latter declares his affection for her; and with the prospect of a triple wedding the final curtain falls.

## A Noontime Plan—

During the winter weeks of school a new noontime plan was introduced, whereby the pupils in the high school and the seventh and eighth grades used the library as a game room while the other pupils played games in the third grade room. The gym was used as a ping-pong room. Games such as lotto, darts, old maid, and hearts furnished a variety of amusement.

## Band News—

Thirteen bands of class C, in which the Naples High School Band is included, will compete in the annual band contest to be held on Friday and Saturday, April 29 and 30. The contestants are rated as to their ability rather than offered prizes.

Two soloists, Leona and Paul Lindsey, will represent our band, playing the bassoon and baritone respectively.

Do you need a reliable person to care for your children in the evening? If so the Senior girls have formed an agency whereby you may obtain this service for as little as 10 cents per hour before midnight and 20 cents per hour after midnight. The proceeds will be turned toward their Washington trip. Call any of the following: Marguerite Morgan, Jean Fox, Helen Ulmer, Phyllis Walker, Florence Woodard, Betty Gilmore, Frieda Braun.

## Ag Boys Complete Projects—

The year 1937 was not as profitable a year in farming for the Naples Young Farmers as was 1936, as shown by the Cost Account records kept on projects during the year. These records, which show all the cash costs, and receipts on the project enterprises, also include costs of labor and other expenses not commonly considered by most farmers. The Pupil's Labor Income, which is the figure commonly used to measure the Pupil's profit on his project, is simply the value of the pupil's labor added to the profit on his enterprise. The total Pupil's Labor Income for all the projects completed in 1937 was \$292.21 as compared with \$67 for the year before. The following

is a summary of the Total Pupil Labor Income on the projects carried in 1937 in the order of profitability.

	No. of Pupils	No. of acres	Total Income
Calf or heifer	8	9 acres	70.09
Laying Flock	2	97	67.13
Grapes	1	1 acre	60.85
Dairy Cows	1	1 acre	56.25
Home Garden	4	1 acre	33.00
Breeding ewes	2	5 acres	30.73
Raspberries	2	2 acres	29.90
Chick Rearing	1	100 acres	29.09
Potatoes	6	6 acres	80.65

Total number of boys included was 16.

Other projects and supplementary practice carried on by the boys included duck raising, record keeping on sheep, dairy cattle, poultry, berries, grapes, etc.; cost account records on crops; pruning, sharpening tools; and farm experience. As a part of his class work each boy takes a complete farm inventory of his home farm during January.

## Pythons' Claws Parts of Legs

Pythons' claws are really parts of fully developed legs inside the snakes' bodies. The claws are all that protrude from the skin. They can be moved, and are used as weapons. Pythons are the largest snakes, but different types vary in length from 6 to 33 feet. They are favorites of circus "snake charmers." As such, they become affectionate, often refuse food from anyone but their owners. However, most of them are vicious. They will attack a man, but cannot swallow him unless he is narrow shouldered.

## GERMANS TAKE AUSTRIA

(Continued from page one)

ly-long freight train with the sides of the cars painted a dead white with Nazi slogans in screaming big script, as if written with a giant pen, on each of the panels. Goebles' idea apparently is: repeat a thing often and loudly enough, and the proletariat will believe it. And he seems to be putting it across in Austria, as we all got the idea from what we saw and heard, that Hitler has a majority of the Austrians with him.

We arrived here today by auto, after leaving the cruise ship at Villefranche. We are surprised at how little English is spoken here. As a rule, valets, maids and waiters in these de luxe hotels speak it, but here the concierge and the maitre d'hotel are the only ones we've been able to use it with. So we're having a good excuse—and lots of fun—in floundering around with our "pigeon French." Helen and I in partnership, and by dint of hard work, manage to get along with those who speak only the native tongue. Only in Greece and Italy have we been up against it, although Venice is an exception to the rest of Italy in this respect.

We start a three-day auto tour of the Riviera tomorrow, making this hotel our headquarters; then on to Paris and London and our return embarkation on the Normandie on the 27th.

This is the fifth letter only that I've written since we started. They kept things going so fast on the boat that I didn't get a chance there, and ashore we were just on the move all the time.

Affectionately,  
 Father.

## Full-Fledged Adult

It is difficult to say exactly when a person is a full-fledged adult. Dr. Ales Hrdlicka, of the Smithsonian Institution, says a man is not full grown at twenty-five, and may not even be at forty. The process of growth continues almost to old age, he says, and may never be complete. The arms, legs and body are known to grow long after manhood and womanhood are considered complete. Women's feet grow more than men's after twenty-five, and a man's chest grows till he is forty or fifty. When old age sets in the chest and trunk shrink and the legs shorten slightly. The nose continues to lengthen throughout life in most people.

## MRS. SOPHRONIA A. PARKS

Funeral services for Mrs. Sophronia A. Parks, 57, wife of James M. Parks, who died at her home in Naples, Thursday, April 14, 1938, were held from the home of her daughter, Mrs. Darwin Kern, of Wayland, Saturday afternoon, with burial in Evergreen cemetery, Springwater.

Surviving besides the daughter, are the husband, and four other daughters, Mrs. C. T. Nash, Lima; Mrs. Grant Weidman, Dansville; Mrs. W. M. Britt, Rochester; Mrs. Gilbert Snyder, Naples, and one son, Orrien M. Parks, of Naples.—Wayland item in Dansville Express.

## Beau Brummell's Nerve

Beau Brummell, Britain's leader of fashion, died in 1840, but the world is still chucking over his escapades and colossal nerve. Asked by a beggar for a penny, he said he never heard of such a coin. "Here's a quarter." Returning from a trip abroad a friend inquired what scenery pleased him most, and ringing for his man, he said, "Pray, tell his lordship what scenery we liked best." But the climax of his impudence was the meeting of the crown prince and heir to the throne, walking with a duke, and saying to the duke, "Who's your fat friend?" at a time when the heir to the throne, his former chum and pal, was angry with him.
